Subject: Fw: Approval and Certification status of
Remediact "Bio-remediation product in Nigeria

Dear Mark,

Greetings,

I hope this email finds you well,

Basic Nigeria Technology Ltd is please to inform you that Remediact bio-remediation product has finally been given approval to be used anywhere in Nigeria for the purpose of hydrocarbon contaminated land treatment. The approval was issued by the local regulatory agencies; Department of Petroleum Resources DPR and National Oil Spill Response and Detection Agency NOSDRA.

This success story wouldn't have been completed without your strong technical support, the product passed through series of laboratory analysis and practical applications to test for toxicity, biodegradability as well as its efficacy. The process may have been capital intensive but it was worthy of the trial.

Further to this development, Basic Nigeria Technology Ltd have started the process of advertising the product for local consumption within the oil and gas industry in Nigeria. As your exclusive representative in Nigeria, please kindly refer all enquiries from Nigeria concerning Remediact and other SpillAway Remediation products to us.

Once again thank you for your support.

With regards,

Essien GT.
